### Description

schulz aktiv reisen is a German Tour Operator focussed on group tours worldwide (small sizes, German guides). We are currently active in over 90 countries. We promote a very nature-oriented and active tourism. Hiking tours as well as some multiactive-tours (cycling, boat, etc.) are our focus. Depending on the region, these can be challenging mountain ascents or relaxing walks with local encounters. We prefer tours, which discover one region in great detail rather than entire countries.
