Description

This company was founded 2013, for the reason of Reinaldo Alves desire to let people know about the mountains, traditions, fauna and the flora of Monchique, an Algarve region which he knows perfectly since he was born and raised here, always in this region. Monchique Passeios na Serra is, and the name says it all, a company which organizes guided walks through the mountains of Monchique, also adding a cultural touch with visitations of historical places, ruins, bird watching, visits to medronho (liquor from the strawberry tree) cellars and convivial moments with music. Direct contact with local population is privileged and, if wanted, people can spend the night in the country side, in tents or in a traditional house in the country side. Water is always present through the walks in streams or small rivers.
