- Saturday 18 April 2015 (11:15 am - 12:30 pm)

Description

Vicentina - Association for the Development of the Southwest established in 1992 due to the necessity, felt by the members, of creating a structure capable of implementing new ways of social intervention at local level, with a special focus on the rural world. Its intervention areas are the municipalities of Aljezur, Monchique, Vila do Bispo, Lagos, Silves and Portimão, but it can be extended to other municipalities. Vicentina will attend the ANW and promote contact with local producers (handicraft, "aguardente de medronho", liqueurs, honey...).
